

Caglar Baran BORA

Front-End Developer

Mersin/Turkey | boracaglarbaranbora@gmail.com | +905522321279

SUMMARY

I'm a Front-End Developer, recently graduated and skilled in modern web technologies such as HTML, CSS, JavaScript (ES6+), TypeScript, React, React Native, Next.js and Git. I learn quickly, adapt fast, and enjoy building user-focused, high-performance applications. I'm eager to contribute to innovative teams and grow in the tech industry.

SKILLS

- HTML5, CSS3
- JavaScript(ES6+)
- TypeScript
- React
- React-Native(Native-Expo)
- Next.js
- Firebase
- Tailwind CSS
- SASS/SCSS
- Git
- Redux
- Formik | Yup
- SOLID principles & Design Patterns
- Object Oriented Programming

PROFESSIONAL EXPERIENCE

May 2024 - Aug 2024

FRONT-END DEVELOPER PART-TIME, Inspiration Tech

London/UK

Worked part-time on a fintech project, contributing to the development of responsive and secure web interfaces using Next.js, TypeScript, and Tailwind CSS. This experience improved my practical skills in modern Front-End development, API integration, and clean UI design.

Jul 2023 - Dec 2023

FRONT-END DEVELOPER INTERN, Softalya Software

Antalya/Turkey

Experienced with React.js and React Native, building dynamic and responsive UIs. Proficient in using Axios for API integration and managing state with Redux and Redux Toolkit to ensure scalable and efficient apps.

Jul 2022 - Aug 2022

UNITY DEVELOPER INTERN, Netvar Elektronik A.S.

Istanbul/Turkey

Skilled in Unity and C#, with experience building interactive games like an Acrobatic Plane Minigame, a Fetch Minigame, and an Animal Crossing-style game. Focused on game mechanics, animation, and player interaction to create engaging experiences.

PROJECTS

React Book App

Apr 2025

Developed a book search application using React and Books API. Implemented features such as searching for books, viewing detailed information, and responsive design for an enhanced user experience.

Movie App

Jan 2025

Developed a movie discovery application using React-Native and the TMDB API. Implemented features such as searching for movies, viewing detailed information, and displaying trending content. Utilized React hooks for state management and asynchronous data fetching, providing a seamless user experience.

Real Time Chatting App

Nov 2024

Developed a real-time chat application using TypeScript, Expo, and Tailwind CSS. Implemented features such as user authentication, message sending, and real-time updates, providing a seamless messaging experience. Utilized Expo for cross-platform development and Tailwind CSS for responsive design.

Vanilla-JS Calculator

Aug 2024

Developed a basic calculator application to demonstrate proficiency in JavaScript and DOM manipulation.

EDUCATION

Oct 2020 - Present

Bachelor Degree, Karadeniz Technical University

Trabzon/Turkey

Software Engineering
